

# The Strength of Community

Victorian community clubs are not-for-profit organisations that support their local communities.

Clubs help to bring people together with sports, leisure activities, junior development and hospitality offerings to serve the community.

Clubs provide welcoming environments to combat isolation and link people with common interests.

**racing club**

**tennis club**

**golf club**

**bowling club**

Support in the form of community donations, facilities, employment and supporting local suppliers benefits our communities.

All money is invested into providing low cost sporting facilities for communities and sporting groups in metropolitan and regional areas.

Please support your local club!
